Cover Image: The Turkish Aerospace Industries (TAI) Hurjet advanced jet trainer has been selected by the Turkish Air Force and by the Spanish Air Force. TAI are now positioning the Hurjet as a contender for the future British advanced jet trainer requirement. The RAF need to replace their Hawk T1 trainer fleet from 2030 onwards and later the Hawk T2 fleet. The competition to meet the RAF jet trainer requirement will be intense, but the Hurjet, already selected by two NATO nations, represents a valid contender for this British programme. (Image: TAI)
